

## IMPORTANT LOCATIONS:

FusionPBX nginx configuration: /etc/nginx/sites-enabled/fusionpbx

FusionPBX config file (Database and settings): /etc/fusionpbx/config.conf

## SCRIPTS:

Install script: /usr/src/fusionpbx-install.sh/debian/install.sh

Fusionpbx: /usr/src/fusionpbx-install.sh/debian/resources/fusionpbx.sh

Fail2ban: /usr/src/fusionpbx-install.sh/debian/resources/fail2ban.sh

Iptables: /usr/src/fusionpbx-install.sh/debian/resources/iptables.sh

Jail.local: /usr/src/fusionpbx-install.sh/debian/resources/fail2ban/jail.local

## PHP:

/var/www/fusionpbx/app/calls\_active/calls\_active\_inc.php

/var/www/fusionpbx/app/dialplans/dialplans.php

/var/www/fusionpbx/app/dialplans/dialplan\_edit.php

/var/www/fusionpbx/app/destinations/destinations.php

/var/www/fusionpbx/app/extensions/extension\_edit.php

/var/www/fusionpbx/app/conferences/conference\_edit.php

## XML:

Conference\_config:

/usr/src/freeswitch/src/mod/applications/mod\_conference/conf/autoload\_configs/conference.conf.xml

## Conference Sounds:

/usr/share/freeswitch/sounds/en/us/callie/conference/48000/

/usr/share/freeswitch/sounds/en/us/callie/conference/32000/

/usr/share/freeswitch/sounds/en/us/callie/conference/16000/

/usr/share/freeswitch/sounds/en/us/callie/conference/8000/

## COMMANDS (ENABLE PORT 8000 IN DEBIAN):

su -

sudo iptables -I INPUT 1 -i eth0 -p tcp --dport 8000 -j ACCEPT

sudo /sbin/iptables-save > /etc/iptables/rules.v4

service iptables restart

## CHECK IPTABLE RULES:

cat /etc/iptables/rules.v4

-----UBUNTU-----

Give permission to user(www-data):

```
sudo gpasswd -a www-data fusionpbx
```

Check permission:

```
namei -nom /home/fusionpbx/pbx/fusionpanel/fusionpanel.sock
```

Check nginx config:

```
sudo nginx -t
```

Allow all ports for nginx:

```
sudo ufw allow 'Nginx Full'
```
